

KOLLI HIMARAGA VARSHITH

Aspiring MERN Stack Developer

91 9491148245 • kollivarshith123@gmail.com • <https://www.linkedin.com/in/varshith-kolli>
• <https://github.com/Varshith-092006> • Guntur, Andhra Pradesh

Career Objective

I'm a passionate Full Stack Web Developer skilled in the MERN stack, building responsive frontends and scalable backends. I specialize in RESTful APIs, JWT auth, and third-party integrations like Stripe. Experienced with version control, cloud deployment, and database design, I thrive in collaborative, real-world projects.

Skills

Languages: C,Java,Python, JavaScript

Frontend: HTML,CSS,React, Figma, State Management, Material UI, Leaflet.

Backend: Node.js,Express.js, REST APIs, JWT, WebSockets, Socket.IO, Mongoose.

Databases: MongoDB,PostgreSQL

Tools & Technologies: Git, GitHub, VS Code, Postman, Render, Vercel, Netlify, Docker, Microservices, Redis, Prisma ORM, Axios, Docker.

Projects

Real-Time Chat App

<https://chat-app-omega-olive.vercel.app>

Developed a full-stack chat application enabling instant messaging using WebSockets and the MERN stack

- **Stack:** React, Node.js, Express, MongoDB, Socket.IO, JWT, Tailwind CSS
- Built a one-on-one real-time chat application using React, Node.js, Express, MongoDB, and Socket.IO.
- Implemented secure authentication with JWT, cookie-based sessions, and managed auth/socket state using Zustand and Context API.
- Designed a fully responsive UI with Tailwind CSS, including typing indicators and smooth real-time interactions.

Emergency Services Locator

<https://emergency-service-pink.vercel.app>

Built a real-time emergency response app to help users locate and connect with nearby services like hospitals and police stations.

- Integrated Leaflet.js for real-time maps, geolocation-based service discovery, and live communication using Socket.IO.
- Secured APIs and socket connections with JWT authentication, cookie sessions, and well-structured Mongoose models in MongoDB.
- Built a mobile-first React Tailwind CSS UI with dynamic service listings, distance-based sorting, and quick contact options.

URL Shortener Microservices

<https://url-shortener-microservices.vercel.app>

As a scalable microservices-based URL Shortener built with Node.js, Express, and React, using Redis for fast caching and quick redirections.

- Built a scalable URL shortener using a microservices architecture with Node.js, Express, and Redis for fast caching and instant redirections.
- Implemented link creation, redirection, and analytics services with clean API communication and high performance.
- Developed a responsive React frontend for generating, viewing, and managing short URLs with a smooth user experience.

Extracurricular Activities

Participated in a national-level hackathon by Odoo, working on collaborative problem-solving and rapid prototyping.

Registered to participate in an AI-focused hackathon by Google Developers Group Hyderabad.

Education

R.V.R AND J.C COLLEGE OF ENGINEERING

Guntur, Andhra Pradesh

B-Tech in Computer Science and Engineering | GPA: 9.1 / 10

2023 - 2027

Achievements

OptiQuest – DSA Coding Contest – Participated in the OptiQuest DSA contest and secured 1st place among college participants.

Cyber Security Talent Hunt – Competed in the Cyber Security Talent Hunt competition and achieved 3rd prize for demonstrating strong security and problem-solving skills.
